

Harvard Model United Nations is the experience of a lifetime.

Practicing on UN simulations with friends, travelling to Boston with schoolmates, visiting Harvard, attending a conference that gathers hundreds of schools from all around the world, all of these moments are the perfect mix of hard work, fun, and an entertaining learning adventure that we will remember and cherish forever.

It is a great opportunity to prove your value as a skilled spokesperson and also to make new friends. Being selected for this project, was a real privilege , and I feel lucky to have been part of it and part of the PMF team.

HMUN PMF forever !
